February 12, 1967

Dear Mr. Weisberg,

I watched the Re Examination of the Warren Report 2 times (one time was a repeat), and I am going to see the new one tonight. Our whole family was looking for your book Whitewash. One day I am at a candy store and I saw your book. I rushed to the owner of the candy store and I told him to save it for me. The next day I went I bought the book. When I came back I showed it to my friends. It was kind of funny because we started

a discussion about the pictures of your book. The next day my friend Leonard bought the book also. When we went for his book the owner of the candy store told us that he had a copy also. I am sorry to say that the book is a little difficult for me to read. My mother is reading it and likes the book. I am going to read it when I am a little older. I am very interested in the Warren Report. I have many books about President Kennedy. I admire your intelligence greatly. Also your interest in the Warren Report.

When our family saw the program we said that you must have really examined every single detail including dates. How do you know so much? Sorry I have to go now bye!

Your admirer,
Philip Russo
